Forecast for Thursday 19 May 2022

Weather: Patchy cloud through the early morning but skies generally clearing to leave a dry and sunny day. Tending to become somewhat cloudier during the afternoon, but staying bright with hazy sunshine. Feeling quite warm by the afternoon in sheltered valleys.

Chance of cloud-free hill tops above 600m: 80% to start becoming 100% by mid-morning.

Low cloud and visibility: Patches of cloud in places around 300-600m at first, soon dispersing into the morning. Locally poor visibility within this early cloud, but generally excellent visibilities with distant hills clearly visible.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

UV levels will rise to high by the afternoon giving a risk of sunburn. Sun protection and plenty of water will be necessary, particularly if spending a prolonged period of time in the mountains.

Recent rainfall: measured at Neuadd: altitude 353m

Forecast for Friday 20 May 2022

Weather: Becoming cloudier through the early hours with patches of low cloud forming. A mostly dry and cloudy morning and becoming breezier with a few showers developing. Showers becoming more frequent and heavier during the afternoon with a low chance of thunder. Drier by the evening with some sunshine and winds easing.

Maximum wind: South-westerly 25-30 mph gusting 35-40 mph into the afternoon.

Chance of cloud-free hill tops 600m: 60% but 40% during the middle of the day.

Low cloud and visibility: Periods of cloud developing above around 500m during the morning, becoming locally persistent during the afternoon. Poor or very poor visibility in the cloud and during periods of heavier rain. Otherwise good or very good.

Temperature: **Valleys:** Plus 8 Celsius rising to plus 16 Celsius.
At 600m: Plus 7 Celsius rising to plus 11 Celsius.
Freezing level: Above the summits.
